## Software Engineer

Phone: +91 89288 94134 Mail: jadhavsanket621@gmail.com linkedin.com/in/sanketjadhav19 sanket-jadhav.vercel.app

### SUMMARY

Software Engineer with 4+ years of experience designing responsive, customer-facing web applications across fintech, BFSI, and consumer platforms. Proficient in JavaScript ES6+, TypeScript, React, Redux, and modern CSS and libraries, with hands-on experience integrating multiple backend services and REST APIs into unified, reliable systems, and proficient in leveraging AI coding tools (Claude, Cursor, GitHub Copilot) to accelerate development. Known for writing clean, modular, well-tested code and resolving performance and cross-browser issues in fast-paced, ownership-driven teams.

### SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries:** React.js, Next.js, Node.js, jQuery, Redux, Context API, Sass, Tailwind CSS
- **Tools and Technologies:** Git, Webpack, Gulp, RESTful APIs, Browser Dev Tools
- **AI Tools:** Claude, Cursor, GitHub Copilot
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Other Skills:** Responsive Web Design, Cross-Browser Compatibility, SEO, API Integration, Agile/Scrum Methodology

### EXPERIENCE

#### NeoSoft Technologies

May 2025 - Present

##### Software Engineer | Client Engagement: Arihant Capital Markets (Capital Markets / BFSI)

- Built IPO Watch, a full-stack capital markets Next.js portal for sub-brokers, owning end-to-end frontend and backend API architecture to deliver real-time bid and portfolio visibility across retail and admin trading portals.
- Unified mutual fund and equity data into a single portfolio management dashboard by integrating CAMS and FinVU financial data APIs, eliminating fragmented data views across 3+ asset classes.
- Reduced API latency by consolidating multi-stage data orchestration into a single-endpoint architecture, simplifying frontend integration for high-frequency transactional data flows.
- Accelerated feature delivery by 30%+ across 3+ platform modules by building a reusable React.js/Next.js component library, standardizing UI/UX for broker-facing fintech applications.
- Reduced bid rejections by developing MongoDB aggregation pipelines powering real-time dashboards that tracked thousands of daily IPO orders, backed by UPI and Group Code validation for regulatory compliance.
- Achieved 100% portfolio data accuracy by engineering secure JWT-based authentication across retail and admin portals and resolving critical CAMS data-mapping issues in a high-compliance financial services environment.
- Architected a dual-database strategy — PostgreSQL for transactional integrity and MongoDB for aggregation and reporting optimizing performance for capital markets data processing at scale.
- Delivered an internal analytics and reporting engine with symbol-wide filtering, status distribution reports, and live application counters, giving operations teams real-time visibility into IPO order metrics and trading volumes.

#### NTT DATA Business Solutions India

Aug 2024 - Dec 2024

##### Associate Consultant | Client Engagement: ICBC Standard Bank (Banking / BFSI)

- Built 10+ responsive dashboards and web pages using React.js and RESTful APIs, delivering seamless real-time UI updates.
- Developed customized CMS templates with React.js and Node.js, improving content manageability and frontend/backend integration.
- Cut manual invoice-processing effort by 60% by engineering cross-browser-compatible bank-to-bank transaction invoice templates (HTML, XHTML, XSL-FO, XSLT) and optimizing PDF generation via Apache FOP for a global banking client.

#### WeDevelopTech

Apr 2023 - June 2024

##### Front-End Developer

- Designed and developed 15+ responsive websites using React JS, HTML5, CSS3, and JavaScript, ensuring cross-device and cross-browser compatibility.
- Built and optimized CMS platforms using the MERN stack and PHP, enhancing content management efficiency and reducing update times by 40%.
- Applied SEO best practices, increasing website traffic by 15% and improving search engine rankings.
- Integrated third-party APIs to enhance application functionality and improve user experience by 25%.

#### Tekno Point / DEPT

Feb 2022 - Nov 2022

##### Front-End Developer | Client Engagement: Bajaj Allianz Life Insurance

- Developed 20+ cross-browser-compatible web pages using HTML5, CSS3, jQuery, and JavaScript
- Delivered client-facing web solutions for Bajaj Allianz Life Insurance, building 20+ cross-browser-compatible pages using HTML5, CSS3, jQuery, and JavaScript within tight regulatory and delivery deadlines.
- Integrated APIs, including YouTube Data API v3, to enable interactive and engaging content.
